MODEL 5508 BALE HANDLER

STEFFEN SYSTEMS SQUARE BALE ACCUMULATORS

MODEL 950

STEFFEN SYSTEMS

Steffen Systems offers a wide assortment of commercial grade Bale Accumulators capable of packaging eight to fifteen bales. Towed behind your baler, our accumulators connect directly to your tractor's hydraulic remotes and battery - eliminating the need for extra pumps or expensive hitch equipment. Smooth precision functions keep up with any baler's production. Our feed chain eliminates jamming by automatically pulling bales away from your baler, and pausing while the push bar works. Bales will not jam even at high output! Our dump system is tied to your ground speed - creating tight, uniform packages even in steep or rough terrain.
